

Infusion Wellbeing

Henna Brows

Henna Brows UK are the solution to unruly brows, fast-disappearing tints, and keeping a long-lasting defined brow shape.

You'll get 6-8 weeks of colour, definition, and volume. This is a significant improvement over a regular tint (2-3 weeks) due to the hard-wearing, volumizing tint compound, which colours both the hair and the skin of the brow. The result is a fuller, more defined, chic look for your brows.
